

Project Design Phase-II Data Flow Diagram & User Stories

Date	01 July 2025
Team ID	23A51A4222
Project Name	Leave Approval System
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User stories:

ID	As a	I want to	So that	Acceptance Criteria
US-01	Employee	submit a leave request by selecting leave type and dates	I can request leave easily	• Employee can select leave type. • Employee can select start and end dates. • Employee can submit the request.
US-02	Employee	view my leave balance	I can plan my leave accordingly	• System displays available leave balance. • Balance is updated in real-time.
US-03	System	validate leave dates and balance	Invalid requests are prevented	• System validates leave dates (past dates not allowed). • System checks sufficient leave balance. • Error message shown for invalid requests.
US-04	System	route the leave request to the appropriate manager	the right person can review and take action	• Request is routed based on employee-manager mapping. • Manager receives the request.
US-05	Manager	approve or reject leave requests	I can manage team leave effectively	• Manager can view request details. • Manager can approve or reject. • Decision is saved in the system.
US-06	Employee	receive notification about the status of my request	I know whether my leave is approved or rejected	• System sends notification on approval. • System sends notification on rejection.
