Proposed Solution:

S.No	Parameter	Description
1	Problem Statement (Problem to be Solved)	Manual leave management causes delays, errors, poor tracking, and lack of transparency.
2	Idea / Solution Description	Develop a ServiceNow-based Leave Approval System to automate leave requests, approvals, status updates, and notifications.
3	Novelty / Uniqueness	Integrates forms, workflows, approvals, and email notifications into one automated system.
4	Social Impact / Customer Satisfaction	Reduces paperwork, speeds up approvals, and provides real-time leave status to employees
5	Business Model / Organizational Benefits	Improves efficiency, reduces manual effort, and maintains accurate leave records.
6	Scalability of the Solution	Can be extended to support multiple departments, approval levels, reports, and HR features.
